

Practice has Started

Practice has Started

Despite 40 degree weather and off and on snow and rain practice has officially started! Thanks to all those that came out last night and weathered the cold. It was a great turn out. We got a good start on some projects for the lake and even a few brave souls hit the water. Many new faces were out to check out the lake, and afterwards we had the biggest crowd in a very long time at Wooster.

Practice will be every Monday night for the rest of the season unless you hear other wise. If you are a newbie and would like to check out the lake in better weather than come on down anytime. Directions are posted under the team info tab above. For your first time all you need is your USA Water Ski membership. Just follow the link below. This is shaping up to be the best season yet!
